

## STARTING SYSTEM CABLES

### Model 6139 Plug-In Cable

The stainless steel receptacle mounts onto a truck bumper and connects directly to a battery. Reaches stalled vehicles from front, back or side. Includes 25 ft. tangle-free starting cables, side terminal adapters, and polarized LEXAN<sup>®</sup> plug. For flush mount version, combine Model 6125 stainless steel receptacle with Model 6138 cables. MADE IN USA.
